ITSA' ESCROW!!

Date: 5-6^h February, 2022

SFIT ITSA once again continuing its series of new concepts and challenges introduced the second season of ESCROW for the academic year 2021-22. ESCROW was basically a **virtual treasure hunt** based on the skills of **cryptography, cipher, coding and logical thinking**.

ITSA' ESCROW was a two round event divided in two days, basically the **5th and 6th of February 2022**. Considering the current lockdown we made use of Instagram and notepad.pw for hiding our clues. The clues were spread over various instagram accounts made by the ITSA committee members. We had 2 rounds spread

over **2 days**. The rounds were based on Mathematical, technical, coding and logical questions. The participants who cleared round one on 5th February were eligible for round two on 6th February.

The rounds had an increasing level of difficulty. We had kept options for troubleshooting in case the participants found some clues to be too difficult. Through social media platforms we tried to gather a crowd for our event. We constantly kept posting updates about ESCROW a week prior to the event date. We released teasers and short videos to develop curiosity on various social media platforms like instagram and youtube. This helped us to interact more about our event among the viewers.

The event was constructed and framed on instagram accounts to provide clues to the participants. We dropped various posts and videos dedicated to our event, the first one consisted of the teaser and thereafter we kept posting posts related to the rules, requirements, and rewards that were going to be part of the event. After the event we announced the winners and qualified participants of each round.

ESCROW had quite a good reach because of the use of social media platforms for promotion as we had more than one hundred registrations which included registrations from inter department, inter college and also participants from other institutes. Out of so many participants only **13 participants** were able to clear round one and were qualified for round two. We introduced open entries again for round two and had our top three finalists for ESCROW 2022. **Mr.Sanal Menezes(St.Xaviers) secured the first place, Mr.Arsalan Haidery (St.Francis Institute of Technology) secured the second place and Mr.Rehan Almeida (Fr.Conceicao Rodrigues College of Engineering) secured the third position at the final round.**
