Mount Poinsur, Borivali (West), Mumbai-400103
Department of Information Technology
Information Technology Students' Association (ITSA)

Date: 28th November 2021

Report on “Java and Sql”

Event Date: 19th November 2021

Time: **10:00 pm to 02:00 pm (4 Hrs)**

Venue: **Online (Google meet)**

No. of Registered Students: **112 participants**

Meet code: (meet1)

Resource Person:**Mr.Kishan Chaudhary & Ms.Priyanka Pacheria from Rouge Code (Rogue Code L.L.P is mumbai based Company that provides services in Website 7 App Development, Automated solutions, Project Guidance, and Training of Programming languages.)**

A. Details:

As a part of Academic Activity of “ ITSA” of the INFT Department, the JAVA and SQL Workshop was arranged on 19th November 2021. The Workshop was a successful event with all due efforts from each ITSA members and also ITSA coordinators .An impactful session was delivered by our resource person Ms.Priyanka Pacheria & Mr.Kishan Chaudhary. Introduction was given by Mr.Atharva Bhosale (Finance Executive of ITSA for the year 2021-22) and our resource person Mr.Kishan Chudhary and Ms.Priyanka Pacheria and all other participants were then welcomed for the workshop.

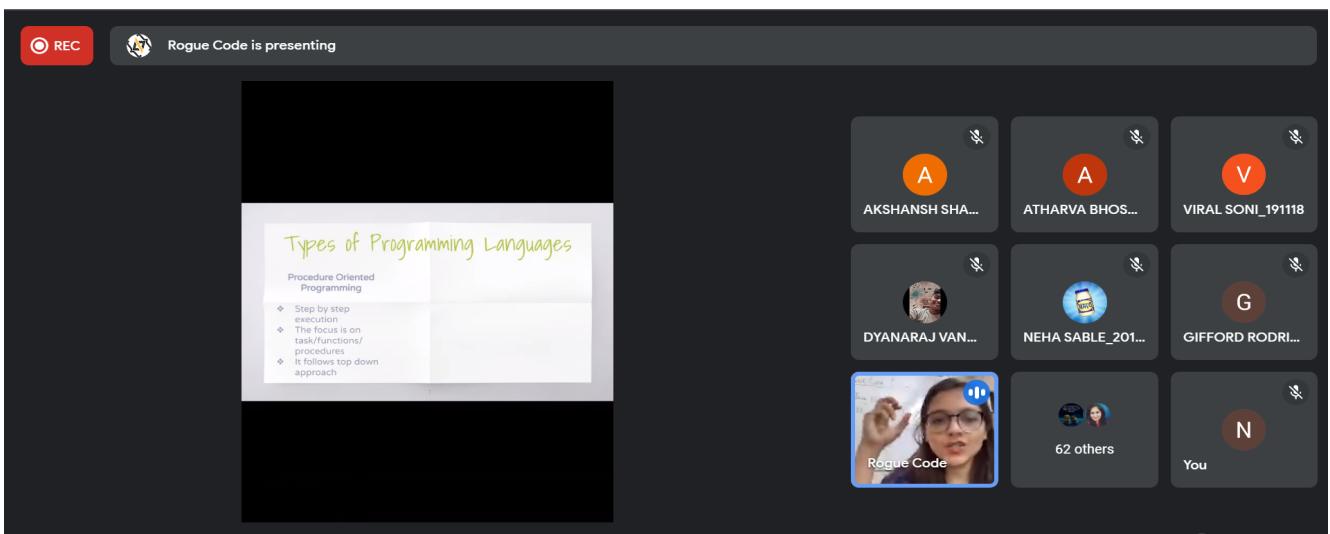

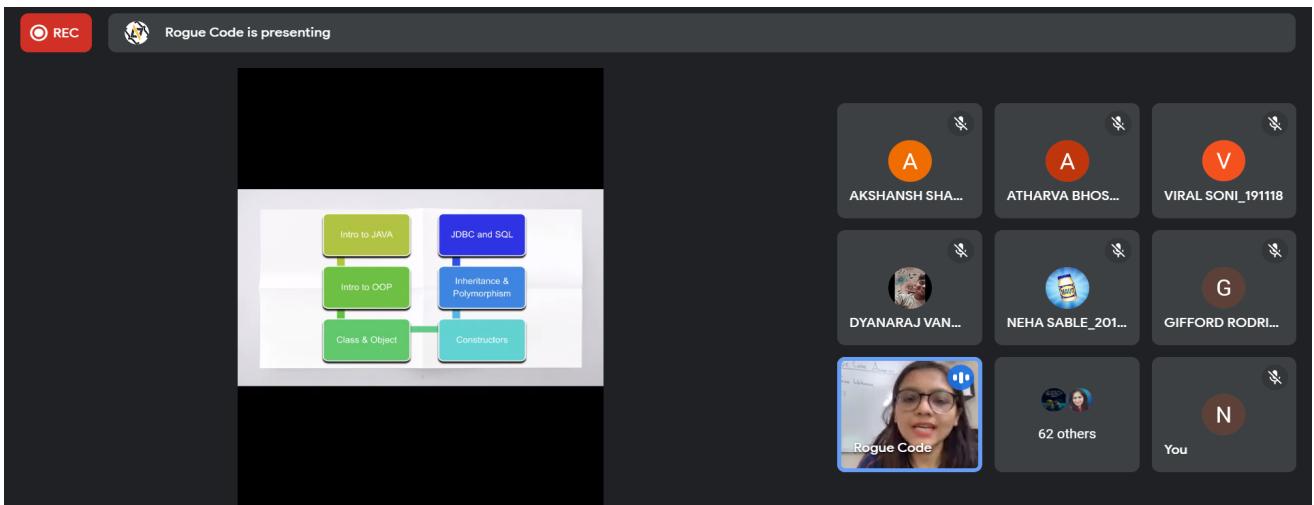

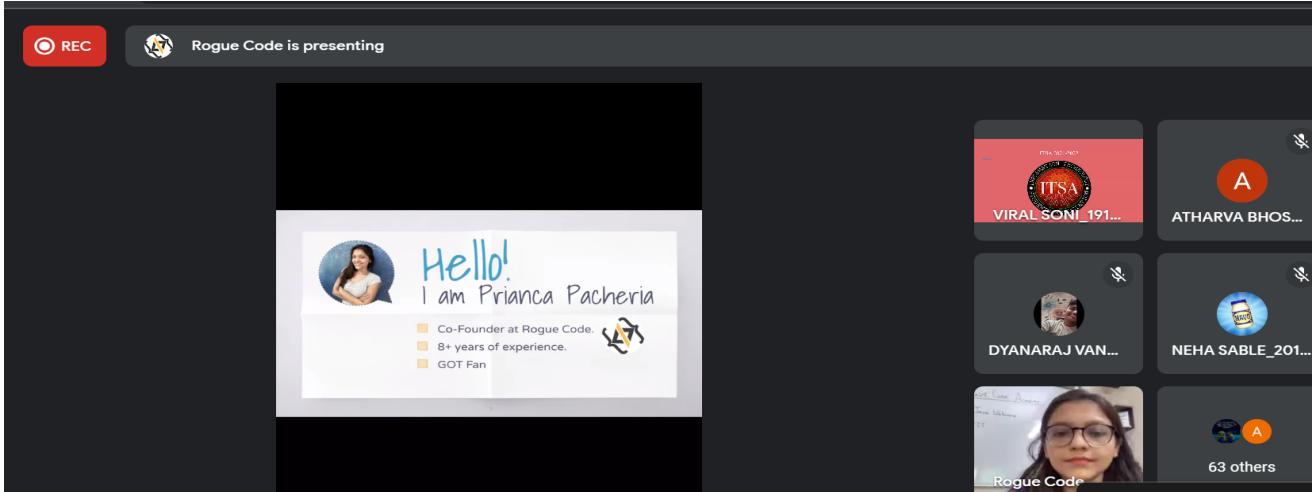

The following topics were covered during the session:

- 1.OOP Fundamentals.
- 2.Classes and Objects with examples.
- 3.Inheritance and Polymorphism.
- 4.Abstract class and Interface.
- 5.Exception Handling.
- 6.JDBC through Simple Mini Project.
7. MySQL.

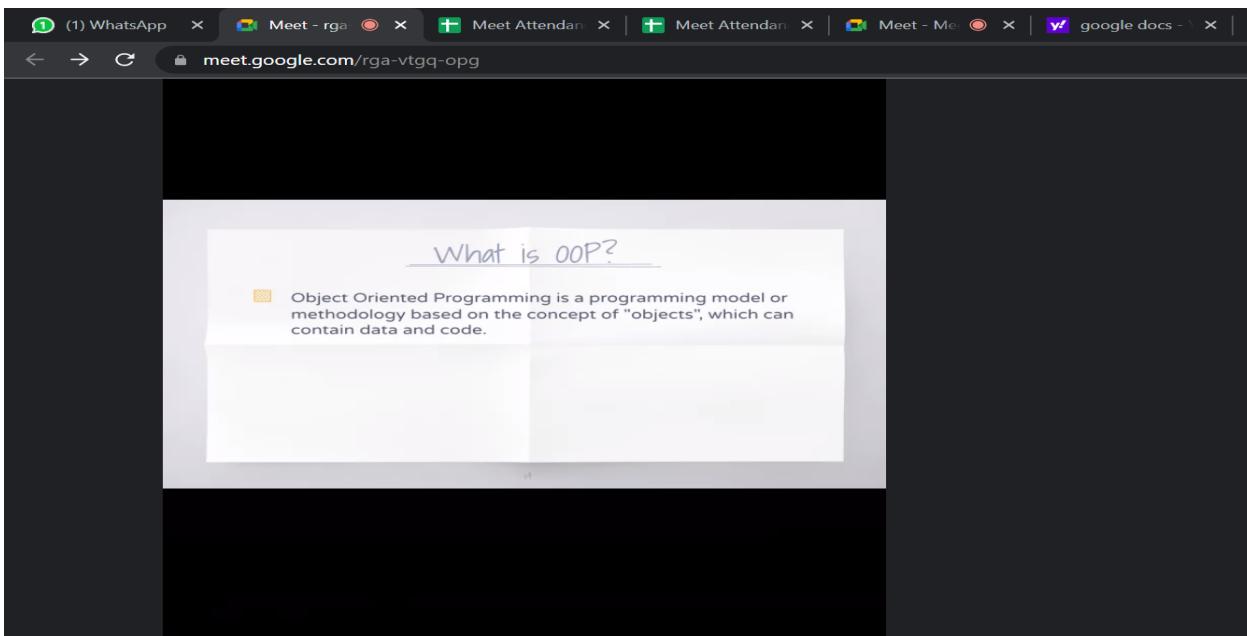

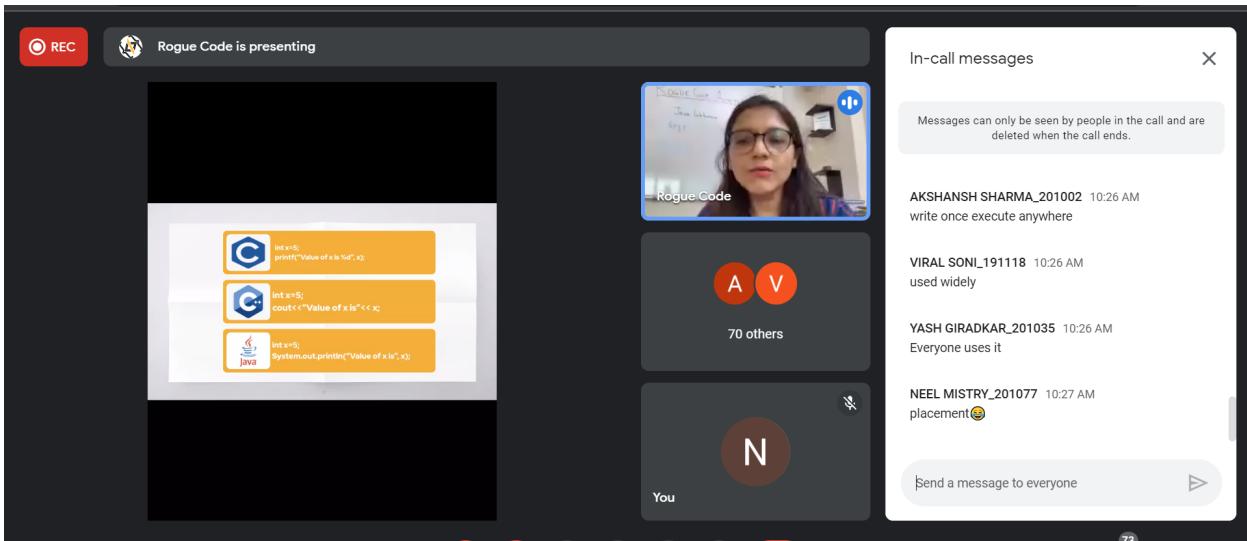

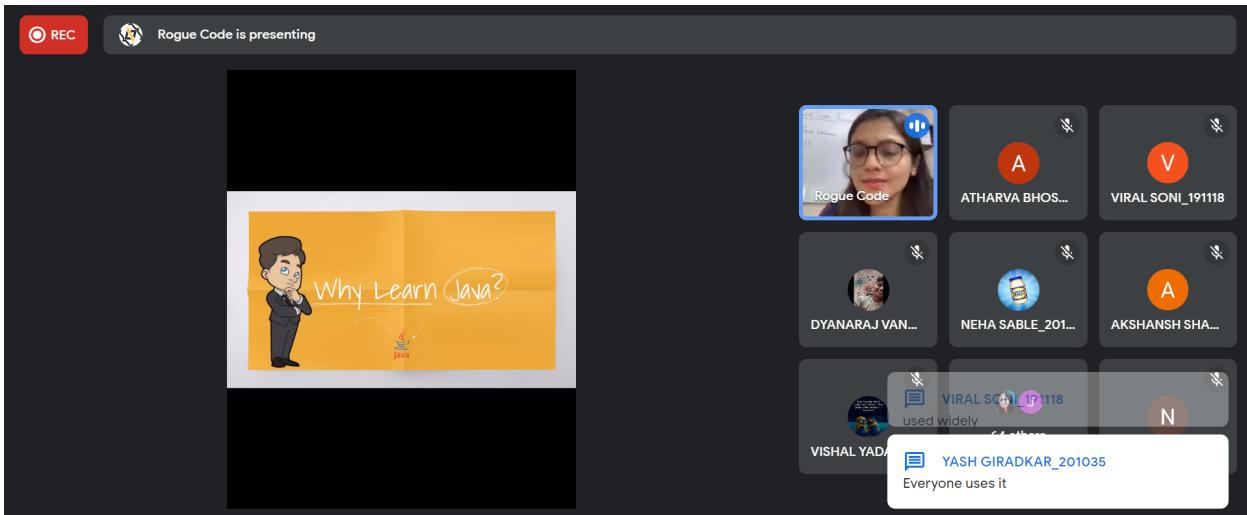

Our resource person Ms.Priyanka Pacheria & Mr.Kishan Chaudhary who is associated with Rouge Code (Company providing guidance and training for programming languages).The Resource Person delivered an excellent session giving insights about the importance of JAVA & SQL and also helped the SE students to modify their upcoming mini projects in JAVA labs.

B. Images of the Podcast:

i)Introduction of the session by Ms.Priyanka Pacheria-

ii.Ms.Priyanka Pacheria started giving insights about JAVA and OOP -

iii.Explanation about AEIP, Classes & Objects and Constructors-

A screenshot of a video call interface. On the left, a presentation slide titled "AEIP - Polymorphism" is displayed. The slide contains the following text:

Poly → Many
Morph → Forms
Behaving differently in different situation

On the right, a video feed of a woman with glasses, identified as "Rogue Code", is shown. Below the video feed, there is a list of participants: "A" (81 others), "N" (You), and a message input field that says "Send a message to everyone". A note at the top right states: "Messages can only be seen by people in the call and deleted when the call ends." Other participants listed include "DYANARAJ VANNIYAR_201119", "AKSHANSH SHARMA_201002", and "shivam dubey".

A screenshot of a video call interface. On the left, a presentation slide titled "Classes & Objects" is displayed. The slide contains the following text:

Class is a keyword, It is used to create User Defined Data types
It is a collection of member variables & member functions/methods
Class is a blueprint of an Object
Class is declared using **class** keyword e.g.
class SIFT
{
member variables + member methods
}

Object is an instance of a class.
It is a collection of instance variables & instance functions/methods
Without a class, you cannot create an object
Object is created through **new** keyword mainly e.g.
Syntax:
ClassName objName = new ClassName();
SIFT s1=new SIFT();

On the right, a video feed of a woman with glasses, identified as "Rogue Code", is shown. Below the video feed, there is a list of participants: "JITESH KAMBE", "DYANARAJ VAN...", "NEHA SABLE", "AKSHANSH SHA...", and "74 others".

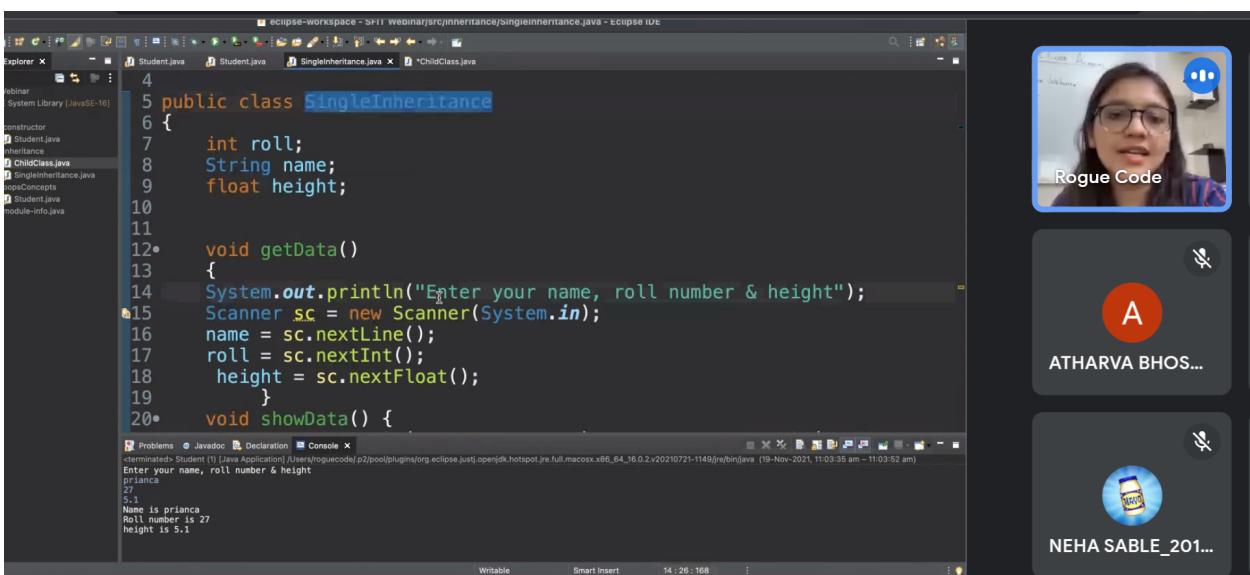

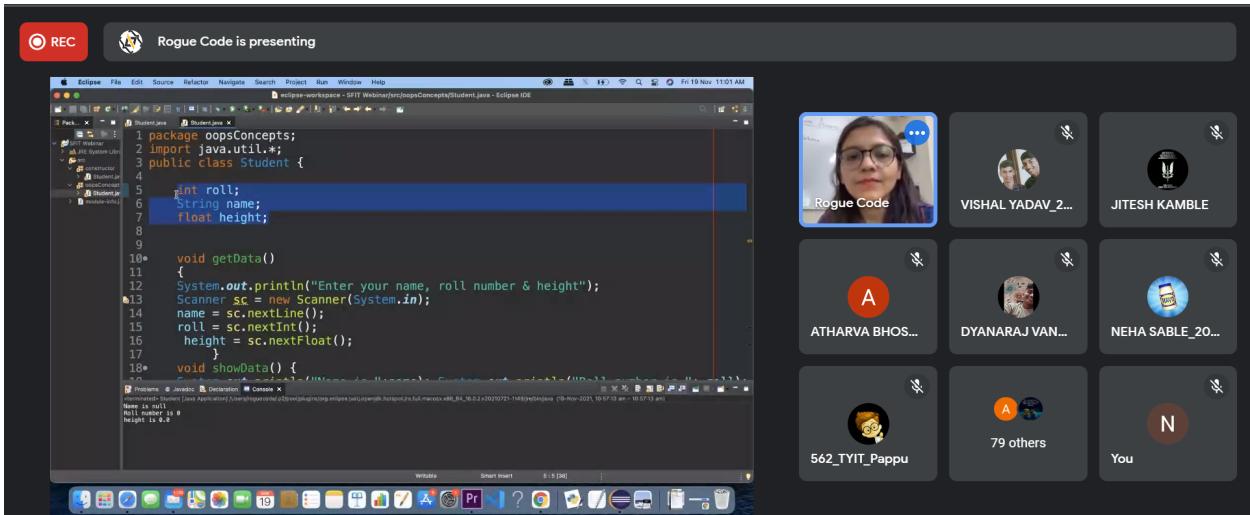

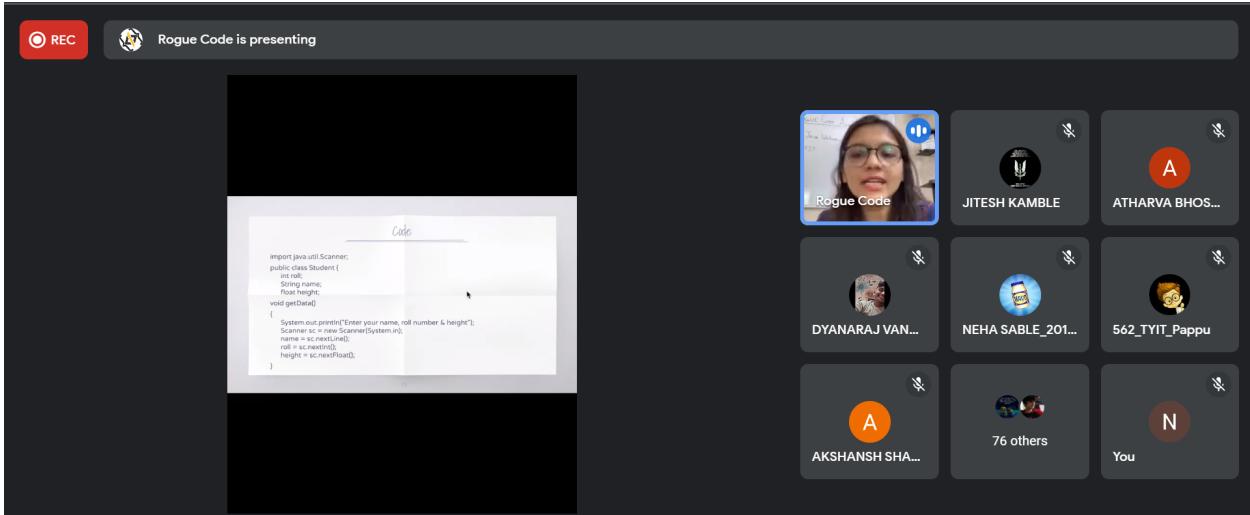

A screenshot of a video call interface. On the left, a presentation slide titled "Constructor" is displayed. The slide contains the following text:

Constructor are special member functions, used to initialize member variables of an object.
Speciality / Important Points

- Same name as of class name
- No return type, not even void
- Visibility should be public, protected or default
- Automatically gets invoked whenever an object of that class is invoked

On the right, a video feed of a woman with glasses, identified as "Rogue Code", is shown. Below the video feed, there is a list of participants: "VISHAL YADAV_2...", "JITESH KAMBLE", "ATHARVA BHOS...", "DYANARAJ VAN...", "NEHA SABLE_20...", "DAMAYANTI_20...", "80 others", and "You". A red button in the top left corner says "REC".

iv. Practice codes related to JAVA programming-

v.Explanation about Method Overloading and JAVA Database Connectivity-

REC Rogue Code is presenting

Method overloading

- Multiple methods with same name but different parameters is called as Method Overloading
- Different parameters can be with reference to the number of parameters or the type of parameters.
- Since the method have same name, which method to be invoked depends on the parameter type and number of parameters.

REC Kishan Chaudhary is presenting

Java Database Connectivity

The Most Awaited Topic of this Workshop

ITSA SFIT Rogue Code TEJAS NIBRAD_2... K Khushi Kashyap P PALAVEE CHAVAN A AMEY GADHE_2... DYANARAJ VAN... 71 others You

REC Kishan Chaudhary is presenting

What Is JDBC?

- JDBC stands for Java Database Connectivity.
- JDBC is a **Java API**
 - To connect and execute the query with the database.
- JDBC API uses JDBC drivers to connect with the database.

Vi.Classes and Interfaces in JAVA.SQL packages and JAVA Database connectivity -

REC Kishan Chaudhary is presenting

Classes and Interfaces in java.sql package

Interfaces

- Driver
- Connection
- Statement
- PreparedStatement
- CallableStatement
- ResultSet
- ResultSetMetaData
- DatabaseMetaData
- RowSet

Classes

- DriverManager
- Blob
- Clob
- Types

Rogue Code ITSA SFIT TEJAS NIBRAD_2... Khushi Kashyap PALAVEE CHAVAN AMEY GADHE_2... DYANARAJ VAN... 71 others You

REC Kishan Chaudhary is presenting

JAVA Database Connectivity in 5 Steps

- Load Driver Class
- Create Connection
- Create Statement
- Execute Queries
- Close Connection

Vii. Data base connectivity codes and vote of thanks-

Kishan Chaudhary is presenting

```

public class Myapp {
    public static void main(String[] args) {
        String url = "jdbc:mysql://localhost:3306/studentDB";
        String uname = "root";
        String pwd = "root";
        try {
            Connection conn = DriverManager.getConnection(url, uname, pwd);
            System.out.println("Connected");
        } catch (SQLException e) {
            System.out.println("Error");
            e.printStackTrace();
        }
    }
}
    
```

Output ->

```

Myapp.java x Run [Myapp]
Email id: kishanchaudhary@gmail.com
Success
Total time: 2.006 s
Passed test 002-11-19T11:40:29+05:30
    
```

Resource Person Feedback:

[We have not yet received the feedback from the resource authority]

E. Results/ Impact Analysis:

Quiz Question paper:

Clarity on the impact of explanation provided along with experiences shared: *

How well were the concepts and examples covered? *

How well did the workshop reach up to your expectations? *

How interactive was the workshop? *

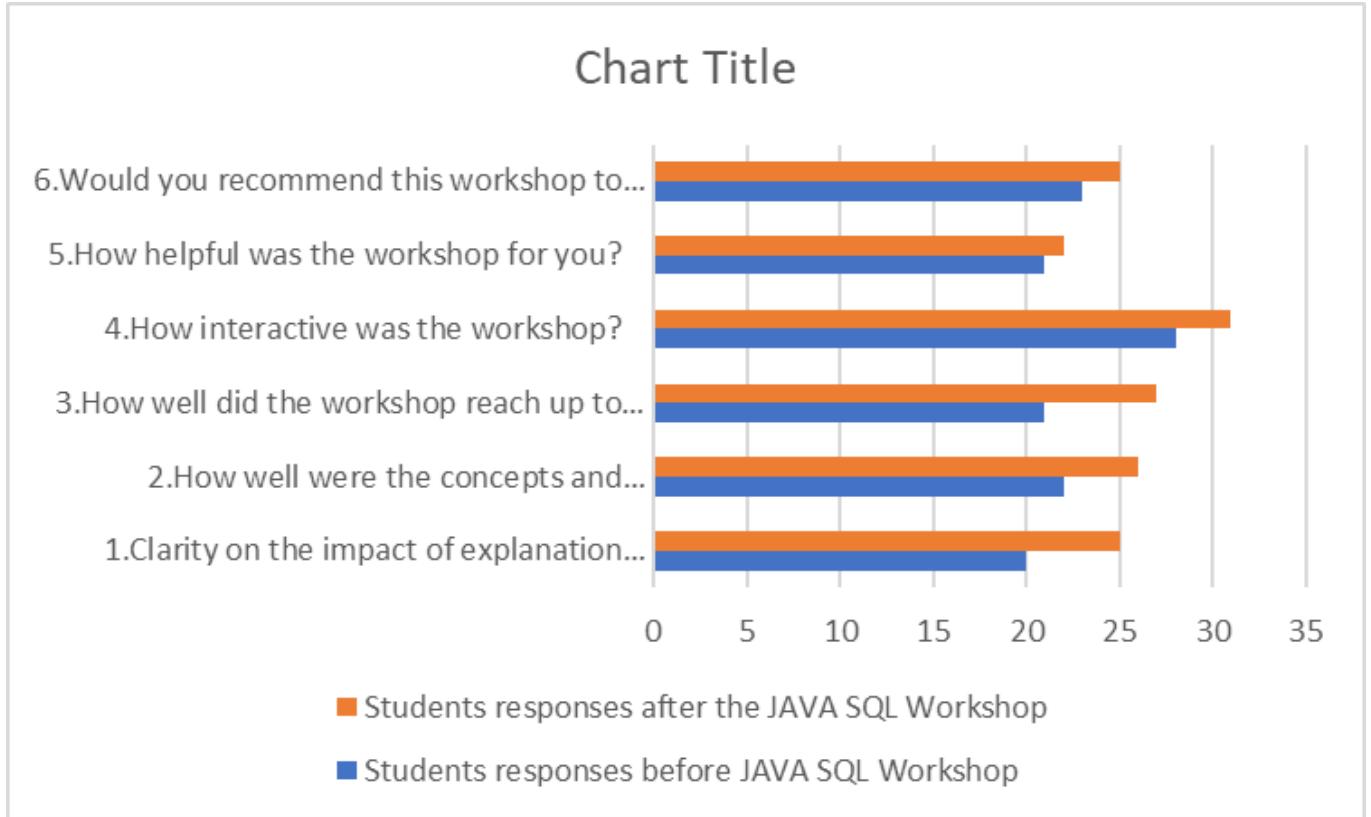

How helpful was the workshop for you? *

- Extremely helpful
- Very helpful
- Somewhat helpful
- Not so helpful

Would you recommend this workshop to others? *

Result Analysis:

It has been observed that 80% of students were happy with the workshop and answered a greater number of the questions after attending the workshop which shows that students learned about JAVA & SQL efficiently.

F. Certificate:

Mrs. Shree Jaswal	Mrs. Grinal Tuscano	Dr.Joanne Gomes
(ITSA Coordinator)	(ITSA Coordinator)	(HOD-IT)
